

13th INTERPA CONFERENCE
“ARTIFICIAL INTELLIGENCE IN POLICING”
12-13 NOVEMBER 2024
RIYADH/KINGDOM OF SAUDI ARABIA

Call for Papers

The International Association of Police Academies (INTERPA) is pleased to announce the 13th INTERPA Conference on Artificial Intelligence in Policing, scheduled to be held from 12th to 13th November 2024 (Arrival Date: 11th November 2024 Departure Date: 14 November 2024) in Riyadh/Kingdom of Saudi Arabia. This conference aims to bring together representatives of police academies, police professionals, researchers, policymakers, and industry experts from around the globe to discuss the latest advancements, challenges, and opportunities in the application of artificial intelligence (AI) in policing.

Conference Theme

The theme for the 13th INTERPA Conference is “Artificial Intelligence in Policing”. This theme encompasses various aspects of AI implementation in policing, including but not limited to:

- AI in predictive policing
- Ethical considerations in AI deployment for policing
- AI-powered surveillance and monitoring systems
- Applications of machine learning in crime analysis and detection
- Automation of administrative tasks in police organizations
- Biometric technologies for identification and verification
- AI-driven decision support systems for police operations
- Cybersecurity challenges and solutions in AI-enabled policing
- Privacy concerns and data protection in AI applications
- Collaborative efforts between academia, industry and police organizations in AI research and development.

Call for Papers

We invite academicians, researchers, practitioners, policymakers, and industry professionals to submit original research papers, case studies, and review articles related to the conference theme. Submissions may address, but are not limited to, the following topics:

- AI algorithms and models for crime prediction and prevention.
- Deep learning techniques for image and video analysis in policing.

- Natural language processing applications in analyzing legal documents and police reports.
- AI-driven risk assessment tools for threat detection and mitigation.
- Blockchain technology for secure data management in policing.
- Human-AI collaboration models in police decision-making.
- Bias and fairness considerations in AI systems used in policing.
- Real-world implementations of AI technologies in police organizations.
- Challenges and opportunities in integrating AI with existing policing practices.
- Policy recommendations for responsible AI adoption in policing.

Submission Guidelines

Prospective authors are invited to submit their papers through the conference's email address: interpa@egm.gov.tr. Abstract submissions should be in MS Word format, adhere to APA 7th guidelines, and not surpass 500 words. They must be written in English. Abstract should include: **The title of presentation, the submitters' name, job title and position, institution, a short bio** including **educational background, email address**. All submissions will undergo a peer-review process by experts in the field. Accepted papers will be presented at the conference and published in the conference proceedings.

Important Dates

- Paper Submission Deadline: 15th July 2024.
- Notification of Acceptance: 15th September 2024.
- Full-paper Submission Deadline: 15th October 2024.
- Conference Dates: 12th-13th November 2024 (arrival: 11th November, departure: 14th November).

Join us at the 13th INTERPA Conference on Artificial Intelligence in Policing to explore innovative AI solutions and strategies for advancing policing practices. We look forward to welcoming you to Kingdom of Saudi Arabia for this intellectually stimulating event.
